Sir: Re: Assassination of President Kennedy 1963

RECEIVED  
APR 2 1976

Recently [redacted] United States Air Force, attending Course #29, National Defence College advised me that he had a conversation with a person who may have some information of value which could relate to the death of John F. Kennedy, former President of the United States of America. I obtained the name of that person from him and consequently interviewed [redacted] who resides at [redacted], Canadian Forces Base, Kingston, Ontario to ascertain if she had any information of interest. [redacted] is the French Language teacher at [redacted]. She is well educated, of Lebanese origin, born in Canada, is approximately 35 years of age, and has worked for the Government of Canada for some time in various roles, usually that of a language teacher. The following story was related to me.

Around the end of July, 1963, [redacted] was visiting the Miami area of Florida in company with 3 other young Canadian girls of French Canadian origin. She does not recall the name of the hotel they stayed at however if necessary she could determine this. As they were returning from shopping at a mall on Miami Beach, believed to be on Collins Ave., a handsome young man drove along side them. He was driving a relatively new Cadillac convertible, beige in colour. On the door on the driver's side, it bore the initials [redacted] was later told that the name of this person was [redacted] and the initials [redacted] stood for [redacted] was wearing a gold chain around his neck with a medal on it indicating he was of the Roman Catholic faith. He struck up a conversation with the 4 girls and later they went for a drive in his car in the Bay area. After shopping for groceries they were taken to an apartment. She does not recall the street but it was not far from a marina. [redacted] lived on the first floor of this apartment block. The decorating was very strange; everything was either black, red or white. [redacted] asked for an explanation because she was curious. She saw a swastika and discovered it was the Nazi symbol. He explained that he belonged to the Nazi movement and showed her his collection of books and literature dealing with the Nazi party. He showed her some pictures. She remembers one of [redacted] as a young boy and another taken in later years when

he was older. The latter picture was taken in a mountain area long with a number of Cubans and in the presence of Fidel CASTRO. [redacted] told [redacted] that he was taken prisoner and was condemned to die. He told her his life was spared due to an exchange of prisoners with Cuba. Apparently his group became very angry at President KENNEDY because they had asked for some favour and had been turned down. He gave the impression that he very much disliked President KENNEDY because of his refusal to help. [redacted] stated he had belonged to an organization that was clandestinely flying to Cuba twice a week or something like that.

At the time of this encounter with [redacted] [redacted] lived in Bagotville, Quebec. She recalls [redacted] telling her that the organization he belonged to existed in Quebec as well. He told her that they were likely being checked by the F.B.I. or Interpol because they may be seen talking to him. [redacted] said they became somewhat frightened wondering what they had gotten themselves into.

[redacted] told them they would hear about something very important in the autumn after they were back in Canada, and words to the effect that the whole world would hear about it due to its importance. [redacted] was wearing a yellow scarf with her name inscribed in a corner in blue ink. [redacted] took this scarf saying he could use the name for a good purpose. After the girls were left at their hotel they discussed this encounter wondering if they were being given a line by someone trying to impress them. [redacted] told her father about the matter upon her return to Canada and thought no more about it until she heard about the assassination of President KENNEDY on Nov. 22nd, 1963. She thought at the time that he may have been referring to this event however discounted any involvement by [redacted] upon hearing of the arrest of OSWALD. She was more inclined to believe [redacted] was talking about action directed at Cuba or Castro.

[redacted] always wondered if she should have told anyone about her chance meet with [redacted] but feared that it would sound a little silly. [redacted] was also confident she would never say anything about their discussion. About 2 weeks ago, [redacted] heard a newscast which suggested the possibility of involvement of Cubans in the assassination plot. She also heard the name [redacted] recently in a news item connected with the recruitment of Cubans and others to go to Angola. Apparently an article appeared in the Ottawa French Language newspaper "Le Droit" mentioning his name.

She described [redacted] as somewhere between 25 & 35 (in 1963) 5' 10" to 6' tall, dark curly hair, Spanish accent, well tanned, and good looking.

[redacted] is a sincere person. She is confident she could identify [redacted] if this became necessary. If there is any possible relevance to this information, she is willing to be interviewed in detail by the appropriate authorities. I do not know if this is of any relevance or not however I suggest it be passed to the F.B.I. for whatever value if any it may have.

Director, FBI (105-82555)

LEE HARVEY OSWALD  
IS-R-CUBA

CARDING DATE 23-2-70

Enclosed for Legat, Ottawa, are two Xerox copies of a self-explanatory telegram received from R. G. Calladine. This communication has not been acknowledged by the Bureau.

On January 9, 1970, the Buffalo Division determined from Inspector Roy Soplet, Metropolitan Toronto Police Department, Toronto, Canada, that R. J. Calladine is identical with Roy Gordon Calladine, born June 23, 1927, in Canada. His Metropolitan Toronto Police Department Number is 4382-1968, and he has been charged with conspiracy and fraud in connection with stock transfers. According to Inspector Soplet, Calladine is considered to be a "nut," and he is currently being tried by the Crown. In connection with Norman Similas he is a witness for the Crown in Calladine's trial.

Similas is apparently identical to Norman Mitchell Similas, date of birth July 7, 1929, Barrie, Ontario. In this respect, refer to Bureau airtel to Legat, Ottawa, dated 9/4/64, and Legat, Ottawa, airtel dated 9/24/64, with LHM, which LHM reveals the results of an interview with Similas conducted by the RCMP on 9/16/64.

The President's Commission requested Similas be interviewed in connection with an article which appeared in the July 15, 1964, issue of "Liberty" magazine, a Canadian publication which is no longer in existence. This article was entitled "The Dallas Puzzle" by Norman Similas, as told to Ken Armstrong.

Letter to Legat, Ottawa  
RE: LEE HARVEY OSWALD

The article indicated that Similas took a photograph at the time the shots were fired at President Kennedy as the President's car passed showing two figures beside the gun barrel at the window, referring to the window in the Texas School Book Depository Building from which the shots were fired. In Similas' statement to the RCMP he claimed that the information attributed to him was not actually correct and that he had not drawn the conclusions about the photographs taken by him but another reporter did. This reporter was also interviewed and he told a different story than Similas maintaining that Similas made the conclusions concerning the photography. The author of the article, Ken Armstrong, also advised that Similas verified and authenticated the article before it was published and he had no way of knowing whether the statements made by Similas had any basis.

The RCMP reported that Similas may have deliberately falsified his article to further his occupation and to make the article saleable. In addition, RCMP reported that Similas' story contained ~~too~~ many inconsistencies and "outright lies" to be taken seriously.

Bureau files reveal that according to Similas, he attended the American Bottlers' Carbonated Beverages Convention held at the Trade Mart, Dallas, Texas, November 17 through 22, 1963, and he was located approximately 250 to 300 yards West of the Texas Schoolbook Depository Building at the time the shots were fired at President Kennedy. Later Similas took a bus from Dallas to Chicago obtaining air transportation at Chicago and arrived in Toronto, Canada about 10 p.m., November 23, 1963.

No further action is being taken by the Bureau in connection with this matter. However, this is furnished for your information and in the event you receive any additional inquiries the Bureau is to be advised. You may notify the RCMP and the Metropolitan Toronto Police Department of this inquiry as Similas is known to both agencies (RCMP No. FPS 697883 and Metropolitan Toronto Police Department No. 417/46.)

RE:  
OBJET:

**President John F. KENNEDY - Murder of:  
- Assistance to F.B.I. -**

1. With reference to the content of the latest correspondence received in this connection, be advised that the following investigations have resulted as shown.
2. Investigation has revealed that there is no firm operating in Montreal under the name of Alpine Construction Limited. This information was confirmed by perusing the Construction Industry 1969 Directory, in which all construction firms of the Province of Quebec are listed. This manual is published as a source of information for business allied to the construction trades.
3. All other firms listed in the local telephone directory under the name of Alpine and related to construction or real estate were canvassed under varied pretexts to attempt to learn if they had an employee by the name of [REDACTED]. In the only two firms operating under the names of Alpine Landscape Co. Regd of 4592 Cookbrook Avenue, Montreal, and Alpine Lots & Chalets, 5871 Victoria Ave., negative results were obtained.
4. As all construction employees in the Montreal district area are contributing to an association, communication was established with the Joint Committee of Construction Trades, where negative results were also obtained.
5. Therefore, it would appear that the name of the employer [REDACTED] supplied was false. Enquiries at the offices of the Montreal City Police, for possible new information on this released convict produced negative results, said person being unknown in this area.
6. In view of the fact that [REDACTED] originates from Halifax, N.S., there is a strong possibility that information could be obtained on his present whereabouts by contacting his listed residence, at [REDACTED], Halifax, N.S., telephone [REDACTED] or from the members of the Halifax Police Department.
7. A copy of this report requesting the enquiries, at Halifax, of the enquiries suggested in the previous paragraph, along with a photostat copy of the FBI report dated 3 APR 69, is being mailed directly to the NCO i/c GIS, Halifax, from this point.

RE:  
OBJET:

Pres. John F. KENNEDY - Murder of  
(ASSISTANCE TO FBI)

s.19(1)

1. [REDACTED] arrived here in mid April of this year and resided at [REDACTED] Street until 30 APR 69. On that date he was admitted to the Psycho Ward of the Winnipeg General Hospital where he is still undergoing treatment. The attending psychiatrist, Dr. John SMITH, advises [REDACTED] is 'psychotic' and an interview at present would be of no value. His mental state is such that he is incapable of distinguishing between fantasy and reality. A lengthy treatment period is anticipated. [REDACTED] has a past record of mental illness having been a patient at the Ontario Hospital for Criminal Insane, Penetanguishene, Ont. in the early 60's and at the Mental Hospital, Selkirk, Man. in 1964.
2. [REDACTED] Salvation Army counsellor, was unable to offer any information regarding possible knowledge by [REDACTED] of the KENNEDY assassination. [REDACTED] was instrumental in having [REDACTED] committed as a result of his mental deterioration over the past two weeks. This was characterized by apparent delusions of involvement in the Mafia, Communist conspiracies and the like. [REDACTED] Street landlord, was similarly unable to assist.
3. [REDACTED] is FPS; [REDACTED] (BD [REDACTED]), entered Canada in 1951 and obtained his citizenship in 1958. He is the holder of Canadian Passport [REDACTED] valid to OCT 69. A reliable source advised his personal papers and belongings do not contain any reference or material relating to this enquiry.
4. Dr. SMITH has agreed to advise immediately [REDACTED] condition improves to allow for a coherent interview. If and when this occurs he will be approached in this regard. In the interim the matter is being closed at this point.

1. This will acknowledge receipt of F.B.I. correspondence dated 3 Apr 69 and memorandum of the A/O/I/C C.I.B. dated Ottawa, 18 Apr 69.

CARDED - 26

3. [REDACTED] arrived in Halifax on or about 20 Mar 69 and remained in this city until 10 Apr 69, when he departed for Winnipeg, Manitoba. While here he was employed at McAlpine Construction Company Limited and Allied Maintenance. During his stay here he obtained a room at [REDACTED] Street, and made the telephone call in question from a pay telephone at the Lord Nelson Hotel, Halifax.

4. [REDACTED] is currently residing at [REDACTED] Street, Winnipeg. This address was confirmed through Allied Maintenance which he had written to on 22 Apr 69, requesting that two days back-pay be forwarded to him at that address. In the event [REDACTED] is not currently at this address I would suggest that the investigator contact a [REDACTED] at the Salvation Army, 261 Fort Street, Room 202, Winnipeg, who apparently has befriended [REDACTED]. This fact was obtained from a [REDACTED] who owns the Morris Street boarding-house.

5. Copy of this report together with F.B.I. correspondence received here is being forwarded direct to Winnipeg G.I.S. for further enquiries. Extra copies attached.

"THE JIM GARRISON INQUIRY, A CANADIAN IS ALLEGED  
TO BE AN IMPORTANT WITNESS..."

Spectacular developments are expected to occur soon regarding the inquiry conducted by Attorney Jim Garrison of New Orleans, relative, as everyone knows, to the Dallas tragedy.

André Fontaine, of Canadian extraction, born at St-Gédéon, Lake St-John, P.Q., had been residing in Cuba, Miami and the Bahamas since 1957, assigned to the CBC news agency, who witnessed events that occurred following that incident. He allegedly "disappeared" since, in an obscure manner.

He had advised his employers shortly before the tragic visit that there was a serious rumor in the Cuban leader circles in Miami and New Orleans, to the effect that "President Kennedy would be assassinated during his visit to Dallas, because of the Cubans' discontent brought about by the President's attitude following the Bay of Pigs' failure and his categorical refusal regarding military action against Cuba.

André Fontaine, who had gone to Dallas to cover the President's visit, had sent a live broadcast over the CBC network, regarding the news of the assassination at the very moment when the President's death was being officially confirmed.

During a visit to Montreal some time after the tragedy, he gave an interview to CBC, and it appears today that what he said then corroborates in all respects the conclusion (?) fatally reached by Attorney Garrison.

That thirty minute interview broadcast over the Montreal CBF station was allegedly recorded by American agents. Afterwards, his life was threatened on many occasions. Especially since his return from Cuba in January 1966, concerning his reports on the Tricontinental Conference, which were broadcast at that time, over the CBC news French network. He had also just completed an upsetting document (manuscript) on the Cuban revolution's success, manuscript that disappeared with him, but a copy was later found abroad and enabled to hold an inquiry that could bring about the expected results shortly.

- 2 -

Upon his return from Cuba, the American authorities allegedly attempted unsuccessfully to accuse him of espionage for the Cuban government, and as his presence had become embarrassing on the American territory, they allegedly wanted to dispose of him. On May 22, 1966, he was put under arrest near his Miami residence and detained in the utmost secrecy by the American Immigration, which wanted to extradite him to Canada following a request by the Quebec authorities for alleged minor charges that did not carry extradition because of an agreement between the two countries. Fontaine had been informed of that plot and had warned his close friends and press agencies. Jamaica and other countries had granted him political asylum with all necessary protections; now, on July 22, 1966, while he was taken to the Miami international airport, thinking he was leaving for Jamaica as he had been told by his lawyer and his secretary on July 21st, he was literally "kidnapped" and forced to board a plane via Montreal.

An official document of the American Immigration certifies that his right thumb print was in the space where his signature should have been, which confirms that he allegedly refused to sign that document. He was refused all contacts with his lawyers or his residence prior to his departure.

Aboard the "Miami-Boston-Montreal" plane, accompanied by American agents (Immigration and C.I.A.), he was surreptitiously administered a poison. Shortly after arriving in Montreal, he was taken unconscious to St. Luc Hospital where doctors fought for several days in order to save his life.

A few days later, following that attempt on his life and while he had not regained all his physical and mental faculties, he allegedly was taken, held by two agents, before an influential judge and "hastily" charged behind closed doors with a series of minor offences that he had allegedly committed.

A long and difficult and serious this time - investigation proves through receipts and service notes from his press agencies and namely CBC as well as his passports, that it was not possible for him to commit the said offences as he was not in Canada on the alleged dates of the pretences which are undeniably false and unfortunate.

Because of reprisals that might have been made against him and of his condition at that time, he was compelled to plead guilty and was "expeditiously" given on the spot a 276 years' sentence in the St. Vincent de Paul maximum security penitentiary, that is 27 times life...

André Fontaine had become an international personality applauded and honoured all over the world, through the discovery of his revolutionary medium, the liquid fluorescent silicon fibre-glass and his unique cosmonitic (?) art. International critics have written hundreds of pages about him.

- 3 -

Early in 1961, he had inaugurated at the Miami WMIE station, the French Voice, programs produced with the CBC French network international service, for the Florida and West Indies French-speaking population, thus contributing to make his country and his native land known through pictures he was showing on his programs. Today, the Caribbean Radio French section no longer exists.

Since his incarceration (at the St. Vincent de Paul Penitentiary) all his close friends, his family and parents have been forced to keep silent. Some from Florida have allegedly even disappeared in a mysterious manner, namely his secretary, Miss C. McCarthy as well as her (?) friend journalist Lisa Howard (who had died since...), a close friend of the Cuban government and of the Kennedy family. She allegedly declared a few days after the tragedy: "President Kennedy was assassinated because his views did not concur with those of the Cuban leaders in the U.S.A., the extreme right movements, the C.I.A. and the very entourage of Vice-President Johnson who together with his friends were calling for military action against Cuba.

Fontaine was also aware that she had made approaches for a possible secret meeting between Raoul Castro, "Che" and Robert Kennedy on a private island in the Bahamas, in order to study the possibility of renewing mutual diplomatic relations. She was to become the U.S. ambassador in Cuba.

As all levels of the Quebec and federal criminal hierarchy refused to give him any assistance to bring to light that mystification, a committee asked the International Commission of Human Rights in Geneva (United Nations Organization) presided over this year by a Canadian, Professor John Humphrey of the McGill University Law Faculty (Montreal) to intervene in his favour. A spokesman for the International Court of Justice in the Hague states that "The Fontaine case would be unique in the criminal history of the so-called 'free' countries"...

To point out André Fontaine's most interesting news reports heard over the CBC network, let us note those of the Cuban Revolution, originating from the Sierra Maestra Mountains in 1958, the Panama disturbances, the Dominican Civil war, President Kennedy's and Oswald's assassination, the opening of the Berlin wall at Christmas of 1963, the Cyprus crisis, the Watts incidents, the Pope's visit to the United Nations, the Havana Tricontinental Conference, the Rio disaster and all the most important launchings at Cape Kennedy since the beginning in 1957.

As a rule, it looks as though the word "justice" is not the apanage of some people... therefore, significant developments with respect to that case may be expected at New Orleans as well as before the Royal Commission on Justice in Quebec and in Geneva, at the

- 4 -

time of the - iniquitous imprisonment - in which important periodicals are interested for the stories of his manuscripts on the Cuban Revolution: "Cuba, the Star will Shine from now on", and the last manuscript that he has just completed, about the tragedy that upset his life, entitled: "Between Darkness and Light" which will be published in French, English and Spanish.

End.

"L'ENQUETE JIM GARRISON, UN CANADIEN SERAIT TEMOIN IMPORTANT!..."

De spectaculaires développements surviendraient bientôt concernant l'enquête menée par le procureur Jim Garrison de la Nouvelle Orléans, enquête relative on le sait au drame de Dallas.

André Fontaine, Canadien d'origine, né à St-Gédéon du lac St-Jean, Québec, résidait depuis 1957 à Cuba, Miami et aux Bahamas, attaché au service de l'information de Radio Canada, témoin d'incident survenus à la suite de cette affaire. Il aurait depuis, "disparu" d'obscur façon.

Il avait informé ses patrons peu de temps avant la tragique visite que des rumeurs sérieuses circulaient dans les milieux des dirigeants cubains de Miami et de la Nouvelle Orléans, à l'effet que, "Le Président Kennedy serait assassiné lors de sa visite à Dallas, en raison du mécontentement des cubains par l'attitude du Président à la suite a l'échec de la baie des cochons et son refus catégorique pour une action militaire contre Cuba."

André Fontaine qui s'était rendu à Dallas couvrir la visite du Président avait envoyé en direct sur le réseau de la C.B.C, la nouvelle de l'assassinat à l'instant même de la confirmation officielle de la mort du Président.

Accordant lors d'un séjour à Montréal quelques temps après le drame une interview à la C.B.C, il s'avère qu'aujourd'hui ses propos de l'époque corroborent en tous points à l'enquête à laquelle aboutit fatalement le procureur Garrison.

Cet entretien de trente minutes diffusé du poste C.B.F de Montréal, aurait été enregistré par des agents américains. Sa vie fut par la suite menacée a maintes reprises. Surtout depuis son retour de Cuba en janvier 1966, concernant ses reportages sur la conférence de la Tricontinentale, reportages entendus au réseau français du radio journal de la C.B.C à l'époque. Il venait également de terminer un bouleversant document (manuscrit), sur le succès de la Révolution Cubaine, manuscrit qui disparu avec lui, mais une copie fut retrouvée par la suite à l'étranger et a permis de mener une enquête pouvant prochainement apporter les résultats attendus.

A son retour de Cuba, les autorités américaines auraient tenté mais sans succès, de l'accuser d'espionnage pour le gouvernement cubain, sa présence étant devenu gênante sur le territoire américain, on aurait voulu le disputer. Le 22 mai 1966, il fut mis sous arrestation près de son domicile de Miami et détenu dans le plus grand secret par l'Immigration américaine, voulant le déporter au Canada au sujet d'une demande faite par les autorités du Québec pour de présumées accusations mineures et non déportables, en raison de l'entente entre les deux pays. Fontaine avait été mis au courant de ce complot et en avait averti ses proches amis et ses agences de presse. La Jamaïque et d'autres pays amis lui avaient accordé l'asile politique avec toutes les protections nécessaires, or, le 22 juillet 1966 alors qu'il était amené à l'aéroport international de Miami, croyant partir vers la Jamaïque comme lui avait signifié ses avocats et sa secrétaire le 21 juillet, il fut littéralement "kidnappé" et poussé dans un avion via Montréal.

Un document officiel de l'Immigration américaine, atteste que l'endroit où aurait dû être sa signature, est couvert de l'empreinte de son pouce droit, ce qui confirme qu'il aurait refusé de signer ce document. Toute com-

Seite page 2

communication avec ses avocats ou son domicile lui fut refusé avant son départ.

Sur l'avion "Miami-Boston-Montréal", accompagné d'agents américains, (Immigration et du C.I.A), il lui fut subrepticement administré un poison. Quelques temps après son arrivée à Montréal, transporté inconscient à l'hôpital St-Luc où les médecins luttèrent pendant plusieurs jours afin de le ramener à la vie.

Quelques jours plus tard, suite à cet attentat et tandis qu'il n'avait pas recouvré ses facultés mentales et physiques, il aurait été amené soutenu par deux agents devant un juge "influent" et en "chambre privée..." et "hâtivement", accusé d'une série de délits mineurs présumément commis par lui.

Une enquête - sérieuse celle-la - longue et difficile, démontre par des récipissés et notes de service de ses agences de presse et notamment Radio Canada ainsi que ses passeports, l'impossibilité d'avoir pu commettre ces délits puisque n'étant pas au Canada aux dates présumées des accusations, prétextes indéniablement inobjectifs et malheureux.

En raison de représailles qui pourraient être exercées contre lui et de sa condition de l'époque, il fut forcé de s'avouer coupable et fut séance tenante "expéditivement" condamné à 276 années de pénitencier à sécurité maximum de St-Vincent de Paul, soit 27 fois la vie....

André Fontaine était devenu une personnalité internationale applaudie et honorée à travers le monde, par la découverte de son médium révolutionnaire, le fibre-verre liquide au silicium fluorescent et son art unique "cosmonitique". Des critiques internationales remplissent des centaines de pages à son endroit.

Il avait inauguré au début de 1961 au poste WMIE de Miami, la Voix Française, émissions réalisées avec le service international de la section française de la C.B.C, pour la population francophone de la Floride et des Antilles participant ainsi à faire connaître son pays et sa terre natale par les images qu'il donnait à ses émissions. Aujourd'hui la radio française de Radio Caraïbe n'existe plus.

Depuis son incarcération (au pénitencier de St-Vincent de Paul), tous ses proches amis, sa famille et parents furent réduits au silence. Quelques-uns de la Floride auraient même disparu mystérieusement notamment sa secrétaire, Miss C. Mc Carthy ainsi que son amie la journaliste "Lisa Howard" (décédée depuis...), qui était amie intime du gouvernement Cubain et des Kennedys. Elle aurait déclaré quelques jours après le drame: "Le Président Kennedy a été assassiné parce que ses vues ne correspondaient pas avec celles des dirigeants cubains aux E.U.A, les mouvements de l'extrême droite, de la C.I.A et dans l'entourage même du vice-président Johnson qui avec ses amis demandaient une action militaire contre Cuba."

Fontaine était également au courant qu'elle avait entamée une rencontre possible secrète, entre Raoul Castro, "Che" et Robert Kennedy sur une île privée des Bahamas, afin d'étudier la possibilité de renouer les relations Diplomatiques mutuelles. Elle devait devenir l'Ambassadeur des E.U.A, à Cuba.

Devant le refus de tous les degrés de la hiérarchie judiciaire du Québec et du fédérale lui refusant toute assistance afin de mettre à jour cette mystification, un comité a demandé l'intervention de la Commission Internationale des Droits de l'Homme à Genève, (Organisation des Nations-Unies), et présidé cette année par un Canadien, le professeur John Humphrey, de la facultée de droit de l'Université Mc Gill,

Suite page 3,

(Montréal) d'intervenir en sa faveur. Un porte parole de la Commission de la Justice Internationale à la Haye, affirme que, "Le cas Fontaine serait unique dans les annales judiciaires de pays dit "Libres"..."

Pour souligner les plus intéressants reportages d'André Fontaine entendus sur le réseau de la C.B.C, notons ceux de la Révolution Cubaine, depuis les montagnes de la Sierra Maestra en 1958, les troubles de Panama, la guerre civile Dominicaine, l'assassinat du Président Kennedy et d'Oswald, l'ouverture du mur de Berlin à Noël 1963, la crise de Chypre, les incidents de Watts, la venue du Pape aux Nations-Unis, la conférence de la Tricontinentale à la Havane, le désastre de Rio et tous les plus importants lancements du Cap-Kennedy depuis son avènement en 1957.

En genèse il semble que le mot Justice ne soient pas d'apache de certains... on pourra donc s'attendre à d'importants développements relativement à cette affaire, tant à la Nouvelle Orléans que devant la Commission Royale d'enquête sur la Justice au Québec et à Genève à l'emprisonnement - i n i q u e - et qui intéresse d'importantes publications étrangères pour les récits de son manuscrit fait sur la Révolution Cubaine "Cuba, Désormais l'étoile brillera", et un dernier manuscrit qu'il vient de terminer relativement à son drame qui a bouleverser sa vie, intitulé; "Entre l'ombre et la lumière" qui seront publiés en français, anglais et langue espagnol.

**Le commis ne se souvient pas de son "fameux" client**

# James Earl Ray avait acheté un complet rue Ste-Catherine

(Par G.B.) — Depuis l'arrestation, à Londres, du présumé assassin du pasteur Martin Luther King, au moment où il était porteur d'un passeport canadien, la police d'au moins trois pays est sur les dents pour découvrir, vraisemblablement, si James Earl Ray aurait pu faire partie d'un complot.

Dans la métropole, les policiers sont particulièrement alertes. Lundi, deux énormes détectives se présentaient au magasin Tip-Top Tailors, rue Sainte-Catherine, près du square Phillips, pour s'enquérir si quelqu'un ne reconnaîtrait pas sa photo.

## DES CENTAINES DE FACTURES

C'est qu'au moment de son arrestation, à Londres, Ray était en possession d'un complet acheté à ce magasin en juillet 1967. Les poli-

clers ont repéré cette filière à partir d'un numéro de manufacturier cousu à l'intérieur du gilet. Ce numéro mena les enquêteurs à Toronto, au siège social de la compagnie. A cet endroit, ils apprirent que ce complet avait été mis en vente à la succursale de la rue Sainte-Catherine.

Enfin, après avoir vérifié des centaines de factures, les policiers découvrirent que Ray avait bel et bien acheté ce complet à cet endroit. On réussit même à retrouver le nom du commis qui avait vendu le complet. Ce dernier, toutefois, n'a pu reconnaître son "client", puisqu'il en sert au moins un millier chaque année. De plus, au moment de l'achat, Ray s'était identifié comme étant Eric Starvo Galt, un de ses nombreux alias. C'est d'ailleurs ce dernier nom qui apparaissait au recto de la facture. ## RE:

Assassination of President  
John Fitzgerald KENNEDY,  
Dallas, Texas (22 NOV 63).

1. Further to previous reports in this regard, I am attaching hereto copies of the galley proofs of "The Dallas Puzzle - Part Two" by Norman SIMILAS as told to Ken ARMSTRONG.

2. In this installment SIMILAS mentions the missing negative, however, it should be pointed out that he told ARMSTRONG that he had prints made and would forward them by mail. They were alleged to have been lost in the mail and this was the explanation SIMILAS gave ARMSTRONG for his failure to produce them.

3. No further action being indicated here, this file will be considered closed.

CONCLUDED HERE:

Canadian eyewitness Norman Similas relates previously unconnected details of the November 22 assassination of President J. F. Kennedy. Similas speaks with Jack Ruby, convicted murderer of Lee Harvey Oswald, at Ruby's nightclub.

# The Dallas Puzzle Part II

Norman Similas as told to Ken Armstrong

AFTER BULLETS RING OUT, JACKIE LEANS ON  
AGENT JUMPS ABOARD CAR

I ARRIVED IN Dallas on November 18, 1963, to attend a convention of the American Bottlers of Carbonated Beverages. My assignment was to photograph highlights of the convention and gather information to be used in the Canadian Beverage Review, a Toronto-based trade publication. I normally live and work in Toronto.

Before the end of the convention on November 21, I had interviewed and photographed Vice-President Lyndon Johnson, who was a keynote speaker at the meeting, and had whiled away part of an evening chatting with the owner of a nightclub across the street from my hotel. His name was Jack Ruby.

Looking upon subsequent events, I have the haunting feeling that fate whimsically cast me as a bit player in an intense and tragic drama that was to shake the world.

## Meets Jack Ruby

ON the evening of Thursday, Nov. 21, I had phoned Jack Ruby's, across the street from my hotel, to determine if the "free admission" tickets given to convention delegates were genuine or come-ons. I had not been able to reach him, so a group of us decided to show them at the nightclub entrance anyway.

Just as I had suspected, we were told by the door attendant that the tickets were not good for free admission that night. Rather than pay the door charge we turned to go, and at this moment Jack Ruby appeared. My first impression was of a heavy-set, hard-headed individual

who could be a warm host one minute and a bouncer the next.

"Come in, boys," he smiled, putting his arm around our shoulders as he led us to a table up front. From time to time he returned to join us, bought us a drink and chatted. When I asked his permission to snap some pictures of the entertainers he said, "Sure, but why don't you save your film for President Kennedy when he drives through the city tomorrow. The parade route is just down the street."

There was certainly nothing in Jack Ruby's behaviour that night to indicate that he was other than a Kennedy fan with a tremendous gift of the gab.

Now, the next day, I remembered Ruby's advice as I heard the TV news commentator announcing the impending parade. It was then that I decided to walk down two blocks to Main Street and see the procession. At the corner of three streets intersecting Main I could see that large crowds had already gathered. So I walked on, to a park near an overpass where the crowd thinned somewhat. It was a pleasant, sunny day and I enjoyed walking the extra distance.

I checked the setting of my 120 Japanese camera, glanced upward to verify the position of the sun and stepped off the curb to catch an early view of the presidential procession.

Then I saw the shiny open-top limousine of the President, leading the parade and approaching at slow speed as it made the turn at Elm Street.

Now the cheering was louder. I could see the President, sitting in the rear part of the vehicle. He was smiling as he turned his head to look up at the top floors of the Texas School Book Depository. I have a feeling that President Kennedy actually saw his assassin in that split second before the first shot rang out . . . for he appeared to be looking directly at the top corner of the building.

## First Shot

TIME SEEMED TO stand still as we heard that first shot. Men, women and children lining the parade route were still cheering and waving. The President's car was now less than ten feet away from me. The President started to lurch forward before my eyes. He seemed to be clutching at the shoulder of the secret service man in front of him.

Another agonizing second passed, and with the exception of this one grotesque incident, everything around me seemed so normally parade-like. By this time I was close enough to the car to have kicked the side of it.

A second and third shot were fired. Now panic set in. Everyone around me was running away or flattening themselves on the ground. The President had collapsed on the floor of the car and Mrs. Kennedy was reaching toward him. From the corner of my eye, I saw a secret service man jump onto the rear bumper. He slid over the tonneau and practically covered the form of the President with his own body.

Still no-one seemed to have any idea as to where the shots were coming from.

## DYING HUSBAND AS FBI

## KENNEDY TALKS WITH TEXAS GOVERNOR JOHN CONNALLY SECONDS BEFORE SNIPER PRESSED ON TRIGGER

Someone pointed to the overpass and yelled, "Over there, over there."

My next recollection was the sight of the secret service man looking down upon the president. He clutched his right fist and banged it against the door rail and moaned, "My God, he's dead. My God, they've killed the President."

I saw the figures of a man and woman who had broken away from the crowd at the overpass and were walking down the grassy incline to Main Street. Police officers were chasing them.

The events I have just described happened so quickly that my physical reflexes did not have time to adjust. My camera had methodically returned to my cheek and I flipped the shutter. In retro-

spect, my actions were completely instinctive.

Something inside me kept saying, "Keep shooting those pictures. Whoever is shooting that gun is a sharpshooter. When he sees the flashes, he will know you are a photographer and he won't shoot you."

The Presidential limousine had passed me and slowed down slightly. My camera was directly angled toward the Texas School Book Depository in the background. The picture that I took on the curb of Elm Street was trained momentarily on an open, sixth storey window.

The camera lens recorded what I could not possibly have seen at that moment—a rifle barrel extended over the window sill. When the film was developed later, it showed two figures hovering over it. Some have said since that one figure was only a packing case. I would feel better if I left that judgment to someone better qualified than myself to diagnose the figures in that picture.

By this time I found myself almost in the center of the street. By quick footwork I managed to avoid a collision with a Texas Ranger who sped by on a motorcycle. The County Jail was only a few hundred feet away, around the corner, and I could see police officers pouring from the building. Again I clutched my camera to my chest, hoping I would be recognized as a press photographer. I was deadly certain that someone was going to be killed. The police were everywhere, brandishing revolvers, rifles and shotguns, and I am sure that one miscue

by anyone in the vicinity would have resulted in a hail of bullets.

Sirens were wailing and the Presidential car, with motorcycle escorts, was speeding toward the hospital.

The crowd slowly dispersed. I looked at my watch. Five minutes had passed since I had arrived at the parade route. They were the five most hectic minutes of my life—and the longest.

### Negative Missing

IN A STATE of semi-shock, I returned to my hotel room, packed and boarded a bus for Chicago. The trip was uneventful, but when I reached Chicago I was interviewed by dozens of reporters and photographers who had learned that I was en route. This delayed the departure of my plane to Toronto by about 45 minutes. But I waited for me, and I can only surmise that somebody was pretty influential with the airline involved.

Upon my return to Toronto, I submitted my developed negatives to a daily newspaper. When they were not used on Monday, November 25, I phoned and asked that they be returned. Later I received a fat cheque in the mail, but the one negative which clearly showed what I believe to be two figures in the window of the assassin's nest was missing. When I pressed for it, I was told that this negative had somehow become lost. It has never since been returned to me.

During the past few months I have received letters, inquiries and proposals

Dallas, Texas (22 NOV 63)

The FBI forwarded a clipping from the Dallas Times-Herald of November 23, 1963, which they feel might have been the origin of SIMILAS' idea that two men were in the window from which the President was assassinated.

2. This is forwarded for your information only, as it does not appear that additional interview with SIMILAS is necessary covering this point.

## Dallas Puzzle

*continued from page 13*

from people in many parts of the world who may have read press reports that I was an eyewitness. They indicate that there is a great deal of suspicion outside of the United States regarding the official American account of President Kennedy's assassination. These suspicions have certainly not been allayed by the statement of Chief Justice Warren, of the commission investigating the President's death. On the day after Mrs. Marina Oswald's first appearance before him, he told reporters that her testimony "may not be released in your lifetime." He added, "I say this seriously."

This statement, in the face of all sorts of fantastic stories that have appeared in the world press would seem to me to be inept and ill-advised.

**F**OR INSTANCE, The London Observer of April 5, 1964, published an article by Cyril Dunn, headed, "Who Really Killed Kennedy?"

Dunn quotes Thomas Buchanan, an American novelist residing in Paris who has written a series of articles in L'Express, the first of which was titled, "Le Vrai Rapport sur l'Assassinat."

Buchanan suggests there were two gunmen, neither of whom was Oswald, and that officers of the Dallas police were involved. He implies that the conspiracy might have been supported by Texas oil

**Vice-President Johnson photographed day before Kennedy's assassination.**

millions, and that Oswald was implicated only insofar as it was necessary to discredit Communism.

Buchanan also theorizes that one of the bullets might have come from ahead of the car. This is nonsense. Unless my ears deceive me, the three shots emanated from the book depository building. But I am equally convinced that there was more than a single assassin. Less than 11 seconds elapsed between the first and the third report, and it would be

very difficult to send home three rounds from a single bolt-action rifle at a moving target.

To further complicate the picture, a U.S. newspaper, the National Enquirer, featured a front-page story on May 17 headlined "Washington Insiders Rocked by Report of a Fantastic Letter—Link Ruby and Oswald—Shocked Officials Hear: U.S. Justice Dept. Letter Blocked Their Arrest Seven Months Before JFK Slaying."

Substance of this piece was that Oswald and Ruby were linked in an unsuccessful attempt to assassinate Gen. Edwin A. Walker several months before the Kennedy assassination. It went on to say that the Dallas police, immediately after the Walker affair, received orders from the U.S. Justice Department to refrain from picking them up, and that the Justice Department deliberately kept the pair out of jail before the Kennedy assassination. Moreover, it stated that the U.S. Central Intelligence Agency was using Ruby to recruit commandos for raids against Cuba.

Articles of this kind can only serve to heighten the suspicions of thinking Americans and undermine their confidence in Federal and municipal government. I fervently hope that when Chief Justice Warren's commission delivers its findings into the assassination of President Kennedy, the truth and all the truth will be told, at whatever price, thereby fitting the final pieces into the Dallas puzzle.

## WITNESS ACCOUNT

# Lensman Heard Shots, Saw Gun

(Editor's Note: This is an eye-witness account of the assassination of the President by a Dallas Times Herald photographer riding in a car close behind the presidential car Friday.)

By **BOB JACKSON**

There were five of us in the car. When we heard the first shot, the President had already turned the corner. We had not made the corner yet. Then we heard two more shots.

As far as I know, three shots were all I heard. I just instinctively looked that way. First, somebody joked about it being a firecracker.

Then, since I was facing the building where the shots were coming from, I just glanced up and saw two colored men in a window straining to look at a window above them.

As I looked up to the window above, I saw a rifle being pulled back in the window. It might have been resting on the window sill. I didn't see a man. I didn't even see if it had a scope on it.

"It was the second floor down from the top of the building and it was the end window facing

Elm Street, the corner window. The President's car was about halfway between Houston Street and the underpass. We were beginning to turn the corner. He (the gunman) had about a 45-degree angle from the building to the President's car.

"I looked to my left and I could see both cars speeding off, the President's car and the car behind him carrying the vice president. They disappeared under the underpass.

"Then I could see a colored family covering up their child on the grass. A policeman was down on his knee. I couldn't tell if he were hit. I thought the child was dead or something. Then the Negro parents picked up the boy and ran.

### COULDN'T BELIEVE IT

"As soon as I saw the rifle, I knew someone was trying to kill them, but it never entered my mind that he could be dead. I just couldn't believe it at first.

"It's going to give Dallas an awful bad name I think. The general reaction of all the guys around me was that they just couldn't believe a thing like that could happen here."

Re: Lee Harvey OSWALD, Aka.  
Internal Security

My letter of September 23, 1964 indicated that additional investigation was being made in Toronto to locate and interview the Toronto Telegram reporter to whom SIMILAS made reference in his statement as well as Ken ARMSTRONG, the person who wrote the article appearing in Liberty magazine.

2. [redacted] reporter and photographer for the Toronto Telegram, was interviewed on September 19 and he advised our investigator that he was the reporter who interviewed SIMILAS on the night of November 23, 1963 and subsequently examined the negatives in SIMILAS' possession. [redacted] advised us that SIMILAS pointed out the window of the Book Depository Building in one of the negatives and asked [redacted] if he did not think there were two people there. SIMILAS drew [redacted] attention to the article written by a Dallas newspaper reporter in which two people were mentioned as having been seen in the window. It was [redacted] opinion that the negatives were worthless from a news standpoint but decided to take them and let his photo editor decide what should be done. During the next day or so, the negatives somehow became lost and according to [redacted] the Telegram, feeling responsible, sent SIMILAS a cheque to pay for them. [redacted] stated he was personally unaware of the amount of the cheque but he later met SIMILAS in a local camera shop and SIMILAS told him he had received 300.00 for his negatives. According to the story given to us by SIMILAS (see his statement) he received \$50.00.

... 2

- 2 -

3. According to SIMILAS, it was the Telegram reporter who noticed the two objects or two persons in the window when examining the negatives. According to [REDACTED] it was SIMILAS who first brought up this possibility.

4. [REDACTED] was interviewed on September 21, 1964 and his statement is attached. [REDACTED] statement indicates that SIMILAS told him he had mailed the photograph in which two persons could be seen in the window of the Book Depository Building fully three months after he had been paid for the negatives lost by the Toronto Telegram which supposedly contained this picture.

5. Copies of the galley proofs of the second instalment of the story to have been printed in the August issue of Liberty will be obtained if possible from Mr. Harold COOK, the former publisher of this magazine.

6. I attach copies of SIMILAS' criminal record for your information and file. Further advice will follow.

## RE:

Assassination of President John s.19(1)  
Fitzgerald KENNEDY,  
Dallas, Texas (22 NOV 63).

19 SEP 64

1. Further to previous report in this regard I interviewed [redacted] reporter and photographer of the Toronto Telegram. [redacted] advised that he was the reporter who interviewed SIMILAS on the night of 23 NOV 63 and subsequently examined the negatives in SIMILAS' possession. [redacted] stated that SIMILAS was very excited at the time of this interview. While viewing the negatives SIMILAS was said to have pointed out the window and asked [redacted] if he didn't think there were two people there. SIMILAS drew his attention to the article written by a Dallas reporter in which two people were mentioned as being in the window. [redacted] said he felt that it was the power of suggestion and that SIMILAS wanted to see two people in the negative so badly that he actually believed that he did. It was [redacted] opinion that the negatives were worthless from a news standpoint, but due to SIMILAS' state of excitement he didn't have the heart to disappoint him. [redacted] decided to take the negatives and let the Photo Editor decide what should be done. During the next day or so, the negatives somehow became lost and the Telegram, feeling responsible, sent SIMILAS a cheque to pay for them. [redacted] advised that he was unaware of the amount of the cheque, but he later met SIMILAS in a local camera shop and SIMILAS told him he had received \$300.00 for his negatives. (Note: he actually received \$50.00).

2. I questioned [redacted] as to his impression of SIMILAS and his story and he replied that he had no doubt that SIMILAS had witnessed the assassination, but "he was sure going to get a lot of mileage out of the story." There appears to be a complete reversal of the roles played by SIMILAS and [redacted] depending on whose story you hear.

There is enclosed a copy of an article which appeared in the July 15, 1964, issue of "Liberty," which is published by the Fengate Publishing Company, 55 York Street, Toronto.

Your particular attention is directed to the center column, page thirteen, of the article wherein Norman Similas states: One of the pictures I took as the presidential car passed showed two figures beside the gun barrel in the window. A reporter for the Dallas Times also saw two figures. His newspaper published that story too. I have never heard another reference to it since."

The President's Commission has requested that the author of this article be contacted and the photograph referred to above be obtained, if possible. The Commission has also requested that the name of the presumably Dallas Times reporter referred to in the article be determined in order to "ascertain whether such a picture ever existed."

Due to the urgency of this matter, it would be appreciated if this matter could be referred to the field by telex and the field instructed to advise by telex if the Dallas Times reporter is identified, it being noted in this connection that this office has been instructed to cable his identity to the Bureau. Should any delays be encountered in this case, please advise this office so that the Bureau may be promptly notified.

It is noted the concluding paragraph of the article states an additional installment was to appear in the August, 1964, issue of "Liberty," and inasmuch as inquiry through the National News Agency in Ottawa reveals this issue is not now available, it would further be appreciated if your Toronto Division would endeavor to obtain a copy. For your possible assistance, John Dalrymple is reportedly the editor of "Liberty."

Calgary telephone number 263-8700 is listed to PEMBINA PIPE LINE LTD., 3rd Floor, Petro-Chemical Building, 805 - 8th Ave., S.W., Calgary, Alberta. The President of this firm, Mr. E. CONNELLY, was contacted on June 17, 1964, under a pretext and during the conversation with our investigator he advised that no one by the name of [redacted] is on their payroll, but for the last three years a person named Henry William ACTESON, approximately 39 years of age and of English birth, has been employed as Production Manager of PEMBINA PIPE LINE LTD. ACTESON was a resident of Regina, Saskatchewan before taking up this employment in Calgary and before immigrating to Canada he was employed with the BRITISH PETROLEUM COMPANY in the Middle East. The above information was all supplied by Mr. CONNELLY.

2. The records of the Alberta Government Telephones were checked and indicate that Henry William ACTESON has resided at 4412 Coronation Drive, Calgary, since March 20, 1964. His present telephone number is 243-7405. Prior to this he resided at 1301 Prospect Avenue, Calgary, telephone CH4-0451. A check of long distance toll slips for the June, 1964, billing period on ACTESON's present telephone revealed that nine long distance calls were made to other Canadian points. No calls were placed to the U.S.A. A check of long distance toll slips billed to PEMBINA PIPE LINE LTD., for the same period reflects numerous calls to both Canadian and U.S. points, however it was noted that on April 6, 1964, a person named HALL placed a call from Winnipeg, Manitoba, telephone WH2-9972 to ACTESON at 263-8700, PEMBINA PIPE LINE LTD. in Calgary. This is mentioned because of the similarity between the names HALL and WALL. This may be only a coincidence, but is mentioned

in the event it may be of assistance to your investigation. Long distance toll slips for the November, 1963, period have been destroyed by the telephone company.

3. ACTESON will not be approached and the investigation is not being extended to Winnipeg, Manitoba, pending receipt of an additional request for investigation from your Bureau.

Further to my letter of September 10th, last, information has now been received from the Bureau that one [REDACTED] was interviewed in this matter last year and stated that upon hearing the shots, he looked up at the Texas School Book Depository window in time to see the barrel of a rifle being pulled inside the window, but could not see the person holding the rifle. He also recalled seeing two Negro individuals looking out of the double windows immediately below the window in which he saw the rifle. It was his impression that the two Negroes were looking upward in the direction of the window in which he had observed the rifle.

The foregoing is for your information and possible assistance in this matter.

Your early reply to the requests contained in my letter of September 10th, last, will be appreciated.

*The window is empty now . . .  
but who fired those fatal  
shots? Was it Oswald and  
was he alone?*

**I** AM A CANADIAN who crammed enough memories into 72 hours to haunt me for the rest of my life. It all happened last November in Dallas, Texas.

While I attended a national convention of carbonated beverage bottlers the following events occurred:

November 21—I interviewed Vice President Lyndon Johnson and photographed him in several informal poses.

November 21—I spent more than an hour chatting with Jack Ruby in his night club.

November 22—I witnessed from a distance of less than seven feet the assassination of President Kennedy, and unwittingly photographed his assassin or assassins as a rifle was levelled at him from a nearby building.

Because a coincidental set of circumstances involved me intimately in events leading up to the death of the president, and because I met key figures immediately prior to the assassination in Dallas on November 22, I have since sought out every bit of information available on the subject in the public prints in Canada and the United States. Some accounts I know to be grossly incorrect, and as far as I know, they have never been challenged.

I think I have a retentive memory and a normally healthy curiosity, and I am

## Norman Similas, as told to Ken Armstrong

perplexed by a number of questions that nobody has ever taken the trouble to answer to my satisfaction. Possibly it is because the events surrounding the actual assassination of the President were overshadowed by the murder of suspect Lee Harvey Oswald as he was led from the Dallas Police Station on Sunday morning, November 24.

A special federal investigation committee is sifting evidence and clues related to the assassination, and it may come up with some answers.

### Two in the window

**B**UT IN THE meantime, I am convinced that if Oswald was the assassin—and this has never been definitely proven—he was not alone when he aimed his rifle from the sixth floor window of the depository. One of the pictures I took as the presidential car passed, showed two figures beside the gun barrel in the window. A reporter for the Dallas Times also saw two figures. His newspaper published that story too. I have never heard another reference to it since.

If an accomplice existed, then perhaps it was not a lone screwball, a Marxist, anti-social neurotic who did the deed. In this event, it would be a conspiracy. Might evidence of a conspiracy prove embarrassing in certain quarters? Or might it be better to forget about the whole thing.

Will the investigation committee be able to identify the man who appeared at a Dallas rifle range with Oswald a few days before the President was killed? A man who gave words of encouragement as the ex-marine grouped his shots close to the center of the target?

I would also like to know if Oswald was aware of the planned route of the President's autocade at the time he applied for a job in the depository. If he

did, he had "inside" information, because I have been told by reliable sources that the route was secretly planned two weeks prior to the President's visit but was not made known to the public until three days before the arrival of the President. Oswald had been employed at the book depository for 10 days before the President was shot.

I am convinced that the assassin must have been gifted with remarkable cunning to settle upon the sixth floor of the book building to take up his death watch. Its geographical position marked it as by far the most advantageous assassin's perch in Dallas. From his vantage point he could see the President's car approaching from at least a block away. The car would slow down, of necessity, as it negotiated the hairpin turn at Elm Street. It is possible that the President was in his sights for more than a minute. The building's location also provided an excellent opportunity for a fast get-away through the rear entrance.

### Character of the city

**S**OME PEOPLE have asked me if a presidential assassination might be more likely to happen in Dallas than in other cities in the U.S. My first impression of this busy mid-western metropolis was: "It's a well-heeled Winnipeg." Modern skyscrapers, fine shops, broad streets, excellent parks and all the rest.

But a city is really more than a glistening collection of mortar and brick. The heart of a city is its people, and in the days following my arrival at Dallas' posh Adolphus Hotel I was to have an opportunity to examine the habits, mores and traditions of those people. My conclusion is that the President was in a prime danger zone.

(Continued on page 20)

## Dallas Puzzle

continued from page 13

Dallas is intellectually, culturally, morally and economically insulated from any other large city of similar size in the U.S. It reeks with the affluence born of its oil riches. It is a dynamic, no-holds-barred town—conservative, isolationist, flamboyant, all in the same breath.

Without exception, the people I met in Dallas were generous, warmhearted and considerate of my status as a Canadian visitor. Their hospitality showed in so many ways. I shall never forget the wonderful evening when I was invited to a rodeo and cook-out barbecue because it was one of the most pleasant experiences of my life.

But beneath this veneer was a hardness, a Calvinistic righteousness and a rightist political philosophy so alarmingly extremist that I soon learned to button my lips when politics were discussed.

One evening I attended a dance sponsored by our convention hosts. I asked an elegantly dressed lady for a dance, and as we swung around the floor I could not help but admire the velvety texture of her formal evening gown.

"What is the material," I asked, "clipped beaver?"

"No sirree, it's paw-nee," she drawled. Later, after I had escorted her to her table, and had been introduced to her husband, I again asked about the material in her dress.

Her husband immediately became belligerent.

"Don't you know what paw-nee is?" he asked. "That paw-nee cost several hundred dollars for the pelt alone, and plenty more to have that dress made."

Suddenly it dawned upon me as to what he meant by paw-nee. This was a pony skin dress, and a lovely one, too. I mumbled apologies for having confused it with clipped beaver.

Apologies accepted, he became the smiling host and insisted I join him for a drink. He asked about beavers and a number of other things Canadian. He was interested particularly in hunting, and drew a .25 pistol from his pocket to show me. The man beside him extracted a beautifully tooled .45, and when I left them they were extolling the merits of their respective firearms. From my brief experience in Dallas, I would judge that more of its citizens carry firearms than in any comparable city in the world.

During my stay in Dallas I rubbed shoulders with millionaires and multimillionaires. They are seemingly a nickel a dozen. Strong-minded men, intent upon maintaining the status quo of Dallas and democracy, and God help anyone who differs.

There were probably more people in Dallas outspoken in their views of President Kennedy than anywhere in the U.S. And they were acidly militant about it. That is perhaps why Dallas gasped and gripped its heart with remorse and chagrin when news flashed over the radio that a president of the United States had been killed in cold blood within its limits.

The first reaction of Dallasites was "Why did it have to happen here?"

The second reaction was, "Thank God it was a Commie; only a Commie would do such a terrible thing."

IT WAS my first trip to Dallas, and chances are I will never be there again. Another member of the Toronto publishing firm I represented, John Virgin, had been originally slated to go. The assignments were switched, and instead, he went to Quebec City and I headed for Dallas.

More than seven months have passed since the horrors of Dallas. Never a day passes but what the projector has not flipped in my mind, and the scenes tumble out in sequence after sequence. I can see Lyndon Johnson smiling as he pushed his hand into his coat and says, "Shall I pose like Napoleon?"

In the semi-darkness of the entrance of his night club, Jack Ruby throws a bear-like arm around my shoulders and ushers me to a table. He is saying, "Save your film. Why shoot the entertainers when you can photograph the President tomorrow. He'll be passing by, just down the street."

There is a fade-out and I'm next standing on the curb across from the Texas School Book Depository. From blocks away the cheers rise as the President's autocade comes off Main Street, from Houston Street, slows and turns onto Elm Street. Now the film gears down to slow motion. The leading limousine comes into view. Luckily, I have selected a spot not far from the underpass where the crowd has thinned out. He is sitting in the rear of the car, and I am expecting to see his face showing the traditional Kennedy smile.

A gust of wind tousles his hair. Mrs. Kennedy is beside him. As the crowds cheer and wave the limousine slowly

passes the Book Depository. The president turns his head and looks directly at the upper floors of the building.

At that very instant I hear a report that sounds like a firecracker. The crowd is still cheering, seemingly unaware of the fact that the President has pitched forward. Two more shots are fired.

Like a television camera that zooms back to take in the broad panorama of the crowd in motion, my dream broadens to include the figure of myself, standing at the curbside, as the President's car suddenly picks up speed and races away.

I have called this a dream, but perhaps I should describe it as a nightmare. It has frequently occurred at night, but sometimes during the day when I'm driving or not thinking of anything in particular, my mental newsreel keeps coming back.

Perhaps some psychiatrist could give a logical reason for these flashbacks, which seem to follow the general pattern of what happened to me in Dallas, with the exception that I am always viewing myself from a distance, as an impersonal detached witness.

**B**UT I AM getting ahead of my story. Shortly after arriving in Dallas, I read a prominent article in the local press devoted to an impending visit by Richard Nixon. Nixon would be flying directly from New York, and would be spending only one day in Dallas. I don't even recall what business brought him to Big-D, but I remember that the press coverage was heavy and a great many people were "talking up" Nixon's chances in the 1964 presidential election.

Somebody had told me that President Kennedy was also coming to the city in a few days, and the thought occurred to me, what a coincidence that these two battlers for the presidency a few years ago should both appear in Dallas at almost the same time.

**A** KEYNOTE speaker at the bottlers' convention was Vice-President Lyndon Johnson. I wanted to take some pictures of him for my magazine, so I waited at the Trade Mart door, and soon a procession of cars swept up to the main entrance. Two local photographers asked me, "What car is Johnson in?"

I gravely pointed to the third limousine. Then, when the Vice-President stepped from the first car, I was able to get his picture with less competition. Later, I was setting my camera to take a platform shot of Mr. Johnson from a vantage point backstage. I was interrupted by a secret service man, who seemed ready to throw me out of the building bodily. But after I showed credentials as a press photographer, he cooled down, and soon he was advising me how to fix my camera settings.

Earlier, I loaned a book of matches to a rather impressive looking chap who later identified himself as Broadfoot Saunders, Attorney-General of the State of Texas. We chatted for a while, and I told him I would like to get one or

two more exclusive pictures of the Vice President.

He pointed to an entrance, told me that Johnson's car would be parked there, flanked by two motorcycle police, and that when the Vice President appeared, he would personally set up a picture for me. Broadfoot Saunders was true to his word.

When the Vice President appeared, he smiled at me and said, "Say, you're the young man who fooled the other photographers, aren't you?" I admitted I was, and asked if I could have a picture with his glasses off. He agreed, stepped back into a pose, stuck his hand on his chest and said, "Shall I look like Napoleon?"

After I had taken my shot, I noticed that Westby Parker, president of Dr. Pepper, one of the largest bottling companies in the world, was standing beside me. I asked him if he would like to have his picture taken with the Vice President. At that moment, Lyndon Johnson looked inquiringly at an aide whispering something to him.

Then, even before I had a chance to formally introduce Parker, the Vice President stepped forward, beamed and said, "Westby Parker, how are you?"

I'm damned sure Lyndon Johnson had never seen Westby Parker before in his life, but this warm-hearted camaraderie convinced me that I was looking at an 'old pro' politician of the first magnitude.

But there was one thing I could not imagine in my wildest dreams as Johnson waved and took his leave—that within 24 hours he would be President of the United States!

*In next month's second and concluding installment of "The Dallas Puzzle—By a Canadian Eyewitness", Norman Similas visits Jack Ruby's night club on the eve of the Kennedy assassination and has a conversation with him in the company of fellow Canadian, Peter Sklyerk. The author gives his personal impressions of the man who gained world notoriety by gunning down Lee Harvey Oswald. The author also relates details of the November 22 assassination that have never before been published.* ♦ ♦

4. The foregoing statement indicates that SIMILAS knowingly deceived [REDACTED] into buying the story by promising him pictures which he knew to be non-existent. The paragraph on page 13, centre column, of the July issue of Liberty wherein he states a picture I took showed two figures beside the gun barrel etc. was actually the main point of interest of this story. From all enquiries here I doubt that such a picture ever existed and it is a certainty that it does not now exist. It was pointed out to me that had SIMILAS taken the picture showing the assassin or assassins it would have been exclusive and every medium in the world would have been after it. It would have been "The Million - Dollar Picture" to quote photographer Colin DAVIES. No news editor would miss the opportunity of a scoop of this nature. SIMILAS told [REDACTED] that he had mailed this photograph along with others to the Liberty Magazine fully three months after he had been paid for the pictures lost by The Toronto Telegram and which supposedly contained this picture.

5. SIMILAS' story to me, and to both [REDACTED] contains too many inconsistencies and outright lies to be taken seriously. I feel that he is an opportunist who saw a chance to cash in on the fact that he had witnessed the assassination and in order to do so he had to make his story as convincing as possible. It is unfortunate that by a coincidence the negatives which would prove the lie have been lost.

6. Copies of the galley proofs of the second installment of the story to have been printed in Liberty's August issue will be submitted as soon as they are received from Mr. Harold COOK, the former publisher of this Magazine.

1. Further to previous report in this regard I interviewed [redacted], reporter and photographer of the Toronto Telegram. [redacted] advised that he was the reporter who interviewed SIMILAS on the night of 23 NOV 63 and subsequently examined the negatives in SIMILAS' possession. [redacted] stated that SIMILAS was very excited at the time of this interview. While viewing the negatives SIMILAS was said to have pointed out the window and asked [redacted] if he didn't think there were two people there. SIMILAS drew his attention to the article written by a Dallas reporter in which two people were mentioned as being in the window. [redacted] said he felt that it was the power of suggestion and that SIMILAS wanted to see two people in the negative so badly that he actually believed that he did. It was [redacted] opinion that the negatives were worthless from a news standpoint, but due to SIMILAS' state of excitement he didn't have the heart to disappoint him. [redacted] decided to take the negatives and let the Photo Editor decide what should be done. During the next day or so, the negatives somehow became lost and the Telegram, feeling responsible, sent SIMILAS a cheque to pay for them. [redacted] advised that he was unaware of the amount of the cheque, but he later met SIMILAS in a local camera shop and SIMILAS told him he had received \$300.00 for his negatives. (Note: he actually received \$50.00).

2. I questioned [redacted] as to his impression of SIMILAS and his story and he replied that he had no doubt that SIMILAS had witnessed the assassination, but "he was sure going to get a lot of mileage out of the story." There appears to be a complete reversal of the roles played by SIMILAS and [redacted] depending on whose story you hear.

3. This date, in company with Cst. F.G. Shebib, Kenneth G. [redacted] was interviewed. The following statement was obtained, original of which will be held on file here:

STATEMENT (continued).

THE ROUTE followed by it, suggests that there was a leak of "inside information" as he had been told by "reliable sources" that the route was secretly planned etc. The reliable sources mentioned here were in reality the Dallas newspapers.

17 SEP 64.

7. I have attempted to verify the loss of the negatives by the Toronto Telegram newspaper as alleged by SIMILAS and enquiries at the Photo Department have failed to produce them. Unfortunately, the Photo Editor who was employed at the time of these events, is now deceased, and I have been unable to locate the reporter and/or his "boss" who did the interviews of SIMILAS on his return from Dallas. The Records Department turned up a file on SIMILAS but it contained only clippings of the stories written by the two reporters and a photo of SIMILAS himself. The photographer who took this picture is one [REDACTED] however, I have been unable to contact him to date, as he is on assignment and only reports in to the office when he has something for publication.

8. Efforts are being made to locate [REDACTED] who wrote the article in collaboration with SIMILAS and a copy of the galley proofs of the second installment of the article will be obtained if possible. The Liberty Magazine has gone out of business and the principals are scattered. A further report will be submitted to meet the undernoted Diary Date.

7. During the course of the interview, SIMILAS' attention was drawn to the paragraph on page 13 of the July 15, 1964 issue of Liberty magazine immediately following the heading "Two in the Window". He explained that he had no idea where the shots came from and actually believed they were fired from the overpass in the opposite direction from the Depository Bldg.
8. According to SIMILAS, on November 23, 1963 when he and the Toronto Telegram reporter were examining the negatives, the reporter drew it to SIMILAS' attention that two persons may have been in the window. SIMILAS was very careful to point out to our investigators that it was this Toronto Telegram reporter who referred to "two people". During the interview SIMILAS referred to "two objects" which appeared to be people. The reporter, again according to SIMILAS, pointed out something which he thought might be a rifle barrel between the two persons or objects in the window. According to SIMILAS, he thought that this object was obscure and blended into the shadow of the object to the left.
9. In the article appearing in Liberty, SIMILAS suggests a security leak in regard to the route followed by the President's motorcade and stated "...I have been told by reliable sources that the route was secretly planned two weeks prior to the President's visit...". SIMILAS advised that the "reliable sources" were in reality the Dallas newspapers.
10. Inquiries at the Photo Department of the Toronto Telegram failed to produce the negatives in question and our investigators have also been unable to verify their loss as alleged by SIMILAS. The Photo Editor who was employed by the Toronto Telegram at the time of these events is now deceased. The reporter referred to by SIMILAS, who interviewed him on November 23rd, has not been identified to date. The Records Department of this newspaper have a file on SIMILAS but this was of no assistance in identifying the reporter in question. A photo of SIMILAS contained in this file was taken by one Colin Davies and we are presently attempting to contact this man in an effort to determine whether or not he can identify the reporter.
11. Efforts are also being made to locate Ken Armstrong who wrote the Liberty article in collaboration with SIMILAS and a copy of the second instalment of the article will be obtained if possible. For your information, Liberty magazine has gone out of business and it does not

Assassination of President John  
Fitzgerald KENNEDY,  
Dallas, Texas (22 NOV 63).

1. Further to instructions of the Officer i/c C.I.B. dated 16 SEP 64, enquiries were conducted into the background of Norman Mitchel SIMILAS. It was learned that he was born July 7, 1929 at Barrie, Ontario and is of Swedish descent. SIMILAS is married to Barbara Joan (maiden name unknown). He has three children Wayne age 16, Kirk age 11 and Jacqueline age 3, all ages approximate.

6. I interviewed SIMILAS on this date in company with Cst. M. PORTER and the following statement was taken. Original statement will be held on file here.

Statement Begins:

Rexdale, Ontario.  
September 16, 1964.

STATEMENT OF Norman Mitchel SIMILAS (B: July 7, 1929) 124  
CHELMSFORD AVE., WILLOWDALE, ONTARIO.

I attended the American Bottlers' Carbonated Beverages Convention, held at the Trade Mart in Dallas, Texas, Nov. 17th to Nov. 22, 1963. I attended this convention as a representative of the CANADIAN BEVERAGE REVIEW, a publication for the Canadian Beverage Industry.

During the convention I took about 15 or 16 rolls of film (12 exposures each). On November 22nd, as I heard on T.V. that the President, John F. KENNEDY would be passing on the

## STATEMENT (continued).

PASSING ON THE street immediately behind my Hotel (The Adalpus), I took my camera with the intention of getting some photographs. I saw that it would be impossible to get a photo in the vicinity of the hotel due to the density of the crowd and I walked about three or four short blocks further down the street. The position I finally took was approximately 250 or 300 yds. west of the Texas Book Depository Bldg. Approximately five minutes later the autocade appeared at the corner of Main and Houston. I took my first picture as the lead motorcycle passed in front of me. At the same time as I took the first picture I heard the first shot fired. I didn't take any more pictures until a bus carrying the Presidential Press Party came into view.

I started with a fresh roll of film and there were three exposures left when it was all over.

I called the Toronto Star and my employer and advised them what I saw and a short time later I received a call at the Hotel from a Hamilton Radio Station CHML I believe, and a taped interview was made by a chap named JOHNSON.

As I came from the scene I felt that the shots had come from the direction of the overpass which was behind me, and it was not until I saw a Secret Service Agent look up and back that I thought otherwise. At the same time an Agent sitting in front of the car did the same thing. I then took a picture of the Depository Bldg. The Presidential car veered towards me and then took off accelerating very quickly.

I took a bus from Dallas to Chicago as I was unable to make airline reservations. Enroute I picked up a newspaper in St. Louis and noticed a story which was published on the day of the assassination and which was written by a Dallas reporter. I might add that during the events preceding the assassination, I noted a person on the south east corner of Houston and Elm St. I identify him as being a reporter because he had a camera and a strobe unit. I also feel that I had seen him before during the events connected with the convention. The story which appeared in the Dallas paper and which was later copyrighted and appeared in other papers including the St. Louis Post Dispatch described the account of the view as being where this individual I referred to was standing. At no time did I ever meet or speak to this reporter. His account of the assassination indicated that he observed two people and the rifle barrel being withdrawn from the window into the building.

At Chicago I contacted T.C.A. Reservations where I received a message to call a local Chicago number. I called and a Ray JEFFERIES answered. It was the Associated Press Office. They sent a car for me and I gave him the rolls of film less one of which I did not know the locale. They developed the film there and advised that they had coverage of most of the pictures that I had. I had one other roll which I thought may have contained more

CONTAINED MORE pictures of the assassination and it was in my camera case along with 14 or 15 other rolls. As I did not have time to wait for these to be processed, I left them with JEFFERIES to be processed later. JEFFERIES then drove me to the Airport and sent me the films the following day via Air Mail, with the comment that it was too bad that there was so much duplication of the negatives I had with those they had received on the wire service.

I arrived in Toronto at about 10:00 P.M. on Nov. 23rd. Almost immediately on my arrival at home, I was contacted by a reporter from the Toronto Telegram who advised they received word from the Associated Press in Chicago that I had negatives that they might be interested in. He arrived at my home in five or ten minutes. I went over the story giving him an eyewitness account of what I had seen and heard during and following the assassination. He then examined the negatives, and while examining them he exclaimed, "There looks like two people at this window". I then went over and looked at the negative and I agreed that there were two objects in the window on the 6th floor south-east corner of the building. This window differed from the others in that it had an alcove above the window as opposed to the others on the 5th and other floors, which had a square frame. The two objects appeared to be people and the Telegram Reporter thought he saw what appeared to be a rifle barrel between them. I did not make any comment on this upon looking at it as it blended into the shadow of the object to the left.

This negative was one of a strip of three and this strip plus another strip of three was handed over to this reporter.

The following day, Sunday, I was visited by another reporter of the Telegram who identified himself as the boss of the reporter who had been there the evening before. I told him that I had given the negatives and the story to the chap the preceding night. He asked me what I knew about Jack RUBY and he viewed the remaining negatives which I still had left. He took the ones of RUBY's Carousel Night Club and the Aldalpus Hotel. I believe there was a strip of three but I'm not sure.

The story and a photo of me taken Saturday night, along with the follow-up story and my comments about Jack RUBY appeared in the Monday edition of The Telegram. I phoned the Telegram and suggested to them that they immediately return my negatives if they did not intend to use them in further editions that day. He enquired if it was the Toronto Daily Star that wanted the negatives and I said facetiously that if he sent them to me we'd see. It was in fact the Toronto Daily Star that wanted them.

The following Wednesday my wife telephoned me at work and told me a letter had arrived from the Telegram. This letter apologetically explained that they had lost the negatives. The

STATEMENT (continued).

THE following day I received 3 eight by ten photos and three negatives. These negatives were, I believe from the ones I gave the second reporter on Sunday. In a matter of a few days I received a cheque for \$50.00 from the Telegram.

Since that time I have heard nothing further from the Telegram.

The photograph of the Depository Bldg. which was printed in the LIBERTY article is not the one in which I thought I saw the figures of the two people.

The additional article which was to appear in Liberty Magazine's August issue was drafted and is in type but because of financial difficulties of the magazine it does not appear that it will be published. A copy of this article could perhaps be obtained from Mr. Harold COOK or Mr. K.G. ARMSTRONG the writer with whom I collaborated.

Statement Ends.

During the course of this interview SIMILAS struck me as being a cocky, brash, individual who was quite anxious to create the impression of the "big-shot". We were ushered into the office of the President of ETHNIC BREWING COMPANY (who was away) and SIMILAS began a long dissertation on the events leading up to the assassination of President KENNEDY. When we began to question him on specifics he lost some of his composure and became extremely nervous and unsure of himself. The paragraph in the center column on page 13 of the article published in Liberty magazine was drawn to his attention and he explained that he had no idea where the shots had come from and actually believed they were fired from the overpass in the opposite direction from the Depository Building. It was not until Nov. 23rd, 1963 when he and a Toronto Telegram reporter were examining the negatives of photos he took, that the idea that two persons may have been in the window came up. SIMILAS went on to say that it was this reporter who drew it to his attention, and SIMILAS was very careful to point out that the reporter said "two people". SIMILAS constantly referred to "two objects" which appeared to be people. The reporter then allegedly pointed out something which he thought might be a rifle barrel between the two persons. Here again SIMILAS assured that he made no comment and that this was obscure and blended into the shadow of the "object" to the left. The three paragraphs following are the words of [REDACTED] according to SIMILAS. The next paragraph wherein SIMILAS speaks of the President's Autocade and the route

CONNELLY, was contacted in this connection using a fictitious reason as the excuse for our enquiry. He advised that no one is on their payroll by the name of [REDACTED] but for the past three years a person named Henry William ACTESON, aged approximately 39 and of English birth, has been employed as their Production Manager. He lived in Regina, Sask. prior to moving to Calgary and was employed with the BRITISH PETROLEUM COMPANY in the Middle East before immigrating to Canada.

3. Alberta Government Telephones advised that since 20 MAR 64 Henry William ACTESON has lived at 4412 Coronation Drive in Calgary, telephone number 243-7405. Before this he resided at 1301 Prospect Avenue, telephone CH4-0451. A check of long distance toll slips for the June billing period placed from his present telephone reveals that 9 calls were made to other Canadian points. No calls were placed to the U.S.A. from this telephone. A check of long distance calls billed to PEMBINA PIPE LINE LTD. during the same period reflects numerous calls to Canadian and U.S. points, however we noted that on 6 APR 64 a person named HALL placed a call from Winnipeg telephone WH2-9972 to Henry ACTESON at telephone 263-8700. This is mentioned because of the similarity of the names HALL and WALL. Long distance toll slips for the November 1963 period have been destroyed by the telephone company.

Re: Assassination of President  
John Fitzgerald KENNEDY,  
Dallas, Texas. (22 NOV 63)

Enquiries were conducted in the City of St. Thomas, Ontario, on 25 May 64, in regard to the anonymous letter postmarked St. Thomas, Ontario, April 27th, 1964, and addressed to the Dallas office of the FBI.

2. It is the opinion of our investigator that the letter originated with a patient in the Ontario Hospital, a mental institution located in St. Thomas. Dr. K. McGREGOR, Assistant Superintendent, was interviewed but could not identify the handwriting in the letter and informed that the envelope and paper used are not identical to that supplied to patients by the hospital. He also stated that numerous patients from this institution are allowed considerable freedom including the privilege of visiting downtown St. Thomas during daylight hours. There would therefore be nothing to prevent a patient from purchasing writing paper and envelopes in St. Thomas and mailing letters from the Post Office. Dr. McGREGOR knows of no one who was or had been upset in respect to the assassination of President Kennedy.

*[Handwritten signature]*

.... 2

- 2 -

3. Dr. McGREGOR caused a check to be made of hospital records but no reference was located to Jack WEBBER or Jack FRASHER.

4. Chief Constable W. WHITEMAN of St. Thomas City Police was interviewed and he advised that in the past, he has received letters containing similar wording and phraseology, and has received letters concerning the KENNEDY assassination in which he vaguely recalls some mention being made of the "Four Jacks in a Deck of Cards". Chief WHITEMAN stated that he considered, at the time of receiving these letters, that they originated with a mental patient in the Ontario Hospital and he destroyed them and took no action.

5. Continued investigation was made with the Post Office, National Employment Service, Ontario Provincial Police, City and Telephone Directories, but these failed to indicate the existence in St. Thomas of a Jack WEBBER or Jack FRASHER and no additional information was obtained regarding the writer of the anonymous letter.

6. We have been unable to obtain any information in this regard through our Identification Branch records in this Headquarters and we are inclined to agree that the letter probably originated with a mental patient at the Ontario Hospital in St. Thomas.

7. We do not anticipate conducting further enquiries unless an additional request is received from the Bureau.

E. L. Martin, Supt.,  
Officer in Charge,  
Criminal Investigation Branch.

## RE:

President J.F. KENNEDY -  
Assassination of:  
Assistance to the F.B.I.

25 MAY 64.

1. On this date enquiries were carried out in the St. Thomas, Ont. with regard to the letter submitted to the F.B.I. in Dallas, Texas, U.S.A. in the above connection.
2. It is my suspicion that this letter originated with a mental patient at the Ontario Hospital at that point. In view of this I contacted the Asst. Supt. of that institution. Dr. K. McGREGOR, the person contacted advised that this letter did not pass through the official censorship of that institution. He further advised that many of the patients at that point are supplied with writing paper and envelopes from that hospital. The envelopes contain the Box Number (Post Office) of the hospital in the upper left hand corner and also are stamped through a postal meter at the hospital. The writing paper supplied is lined.
3. Dr. McGREGOR further stated that a large number of the mental patients at that institution are allowed to go into the City of St. Thomas during the day and in view of this there would be nothing to prevent them from purchasing their own writing paper and envelopes and a stamp at any of the post offices in that city. Dr. McGREGOR was unable to identify the writing in the letter and also stated that he was not aware of any particular patient or patients being upset over the assassination of President KENNEDY.
4. Dr. McGREGOR made a check of his records at the Ontario Hospital and advised that they had never had patients named Jack WEBBER or Jack FRASHER confined there.
5. I contacted Chief Constable W. WHITEMAN of the St. Thomas City Police Department and he advised me that he has in the past received letters with similar wording and phrasing. He stated that he has received letters pertaining to the assassination of President KENNEDY and that he recalls letters mentioning that there are "FOUR JACKS IN A DECK OF CARDS". C/Const. WHITEMAN advised that he did not keep any of these letters and made no investigation with respect to the information contained in them. He is of the opinion that the letters sent to him originated at the Ontario Hospital at that point from some of the mental patients. He was shown the copy of the letter received at this point but could not say or recall if the writing was similar to the ones he had received.
6. Further enquiries were made at the Post Office, National Employment Service, Ontario Provincial Police, Telephone Directory and the City Directory all in and for the City of St.

CITY OF ST. Thomas, Ont. and there is no indication that persons named Jack WEBBER or Jack FRASHER have ever resided in that area.

7. It was indicated during this enquiry that any number of patients from the Ontario Hospital at St. Thomas who have the privilege of going into the city, use the facilities of the Post Office. It has also been indicated in past enquiries that letters are sent from the Ontario Hospital by way of visitors and therefor escape the censorship imposed by that institution.

8. Enquiries have failed to reveal that either a Jack FRASHER or Jack WEBBER have resided in the St. Thomas area and in view of this I am of the opinion that this letter did not originate with anyone from the St. Thomas area other than a mental patient. Various officials receive letters from patients confined to the Ontario Hospital which is indicative that the censorship imposed at that point is not unbeatable and with the privileges given to patients to visit in the city I feel that there is no doubt whatsoever that this letter was written by a mental patient and was mailed away from the hospital. It also appears that the St. Thomas City Police Dept. have received similar letters. Unless further enquiries are indicated this file will be concluded at this point.

Enclosed is a Photostat of an anonymous letter and envelope received by the Dallas office of the Bureau on April 30, 1964, postmarked at St. Thomas, Ontario, April 27, 1964, addressed to the FBI, Dallas, Texas, USA, and quoted as follows:

"The people of US. have been trying for a long time but no success - J. F. The results of FBI Laboratory examination stated the envelope was not identified in the Anonymous Letter File and that the envelope and paper do not contain any watermarks or other significant features which would indicate the source of the paper. "Mr. Hoover and Mr F. Warren;

"These few lines will shock you I've been debating with my conscience since Nov. 22 1963. I've prayed to God to help me forget but to-day I find myself not afraid and writing to you.

"Fantastic but true. On the morning in question a friend and I where in the dining room when I was told in English that the President Kennedy was going to be shot. I translated in French to my friend. I did not believe my ears; there was an argument I got a slap on the mouth as I explained that he was well guarded. Then I though should I phone but how, where then how'd believe such an insane truth. Of all the people in Sudbury why me why was I the one to be told. Its very hard to put on paper. ## City Man Over-Hears Death Plot Talks

He managed to elude his pursuer, and took the matter to his lawyer. The lawyer called the United States Consulate in Winnipeg, who in turn called in the FBI.

In testimony to Agent Nelson, the man said both men were already in the room and in conversation when he took a seat at a table in front of them. After placing his order, he noticed the pair were discussing Mr. Kennedy's death, and began to pay attention to what they said.

Piped in music in the room made it impossible to hear the complete conversation, but notes and descriptions forwarded to the FBI have apparently given the investigating agency a good idea of the men's appearance.

### Bushy Hair

One of the pair, described as heavy set, between 45 and 50, with dark bushy hair and bushy pronounced eyebrows, appeared to be asking his companion for details of the shooting. He was wearing heavy, plastic framed glasses.

His companion, believed to be 50 or older, was viewed only from behind by the informant. However a partial description indicated he wore a light tweed suit and two-tone brown shoes, had a badly pock-marked neck and reddish-blond hair. He wore a hearing aid in his right ear, and spoke with a slight accent.

In their conversation, both men expressed concern over how much of the plot to kill Kennedy Lee Harvey Oswald has passed on to his wife, Oswald — who is suspected of being the man who fired at the president — was arrested shortly after the shooting. He was shot and killed two days later, while being transferred from one jail to another in Dallas.

The pair apparently agreed that even should the commission currently investigating the assassination conclude Oswald was guilty, the FBI would not stop its investigation.

### 'Psycho'

A man named Isaacs, and his relationship with Oswald were

also discussed. The pair found it odd that a man of Isaacs' background would become mixed up with Oswald, whom they described as a "psycho."

Isaacs had apparently been spotted near the president in TV film of Mr. Kennedy's arrival in Dallas. At the time of the airport conversation he was being followed by a man named either Hoffman or Hockman, who was to "relieve" him and destroy a 1955 model automobile Isaacs had in his possession.

The elder of the two men who the FBI reportedly believe is from the Southern United States, told his companion "we have more money at our disposal now than at any other time."

### Meeting

He disclosed that the group of which both men were apparently a part, would be holding a meeting March 18 in a Kansas City, Missouri hotel. The group were to reserve rooms under the name of a textile concern.

The two switched their conversation and began discussing airplanes after the third man, sitting at a separate table, apparently signaled them that someone was in earshot of their discussion. The FBI informant testified the man sitting separately stared at him, in such a manner that he got up and left the room in an attempt to locate the police.

The man who followed the informant is believed to be about 35 years old, and is described as having a deformed nose, fair hair and flushed cheeks. Six feet tall, and weighing about 200 pounds, he is believed to be left handed. The fingers of his left hand were either scarred or tattooed.

### Followed

However the man followed, first standing between the informant and a stairway leading to the RCMP office on the ground floor of the airport, and then approaching him as he began to relate his story on the telephone to a corporal at RCMP headquarters downtown. The informant hung up and walked to one of the flight ready rooms on the second floor. After walking through two rooms, he again entered the lobby of the airport. His follower was nowhere in sight.

Agent Nelson accompanied the informant and his lawyer to the airport the night of Feb. 27, and made his investigation of the scene, as well as taking testimony.

Testimony of the Winnipeg man has again sparked rumors that Oswald was but a cog in the plot to assassinate Kennedy. One theory holds the plan was originated by a right-wing organization and had the support of at least some members of the Dallas police force. A recent series of articles attempted to prove that circumstances show the assassination and subsequent killing of Oswald were financed by a well-heeled organization, and received support of at least some law enforcement officers concerned about events of the week and that shocked the world.

## Probe Kennedy Death Here FBI Man Visits Winnipeg To Check Assassination Clue

By DON NEWMAN

An agent of the United States Federal Bureau of Investigation has been in Winnipeg checking out a lead that might shed some light on the mystery still surrounding the assassination of President Kennedy.

Merryl Nelson, an FBI agent stationed in Grand Forks, North Dakota, registered at a downtown hotel two months ago while he questioned a Winnipeg man about a conversation overheard at the Winnipeg International Airport Feb. 13.

The testimony is now believed in the hands of a Presidential Commission headed by U.S. Chief Justice Earl Warren, investigating the circumstances surrounding the assassination of Mr. Kennedy in Dallas, Texas, last Nov. 22.

The local man, whose name is being withheld for security reasons, was in the Horizon Room of the airport to keep a business appointment the afternoon of Feb. 13, when he overheard the conversation of two men seated at a table behind him.

From their conversation, he deduced that both had inside information about Mr. Kennedy's assassination, but when he attempted to leave the room and notify police he was followed by a third man, who had been sitting separately watching both the conversationalists and himself.

NOVEMBER 22, 1963

s.19(1)

On November 27, 1963, an individual advised the San Antonio Office of the FBI that information was received that an unknown male in Montreal, Canada, telephonically requested the names of the residents at [redacted], San Antonio, Texas. The unknown male was told this information was not available. The unknown male, who apparently spoke French but very little English, informed that he had received an anonymous letter dated November 27, 1963, from someone at [redacted] and that whoever had written the letter stated that it was a woman writing, that she had some information concerning the assassination of President KENNEDY and some information about "RUBIO" or "RUBY" and that she needed to leave the United States as soon as possible to go to Germany.

The residents of [redacted] were contacted and furnished the following information:

[redacted] advised that she had been living at that address since 1941 with her family. At the present time her daughter, [redacted], and her husband, [redacted]. She emphatically denied sending the letter or knowing anything about it and she could recall knowing no one in Canada and knows of no one in Germany or anyone who would wish to go there.

ASSASSINATION OF PRESIDENT

[redacted] further stated that she cannot recall having heard the name RUBY and knows no one by that name. [redacted] advised that she lives at [redacted] with her mother, [redacted] and her husband, [redacted]. Her husband has two cousins presently living in Canada, [redacted]. She believes that [redacted] brother of [redacted] is presently visiting them in Canada. To the best of her knowledge, the [redacted] brothers live in Quebec, Canada.

[redacted], who is originally from Holland, worked for several years in New Guinea and when New Guinea received its independence, he lost his business. She stated that [redacted] blamed the Communists in New Guinea for his lost business and for that reason seems to be very anti-Communist. [redacted] is presently in the United States and Canada due to a visa he received sometime in October.

She denied any knowledge of a letter sent to Canada bearing any information concerning the assassination of President KENNEDY or information concerning RUBY and knows of no one who wants to leave the United States to go to Germany.

[redacted] stated that he knows of no one who would write to Canada giving any information concerning the assassination of President KENNEDY or of information concerning RUBY. He stated he has two cousins in Canada, [redacted] lives in Toronto and [redacted] lives in Quebec. He stated that [redacted] is an engineer and works on the First Canadian Missile but does not know if he works for the Government or private industry.

1963, Dallas, Texas

The President of International Firearms Co. Ltd., 1011 Bleury St., Montreal, Mr. Sucher, was interviewed and advised that the list of numbers forwarded with my letter of December 10 was prepared by International Firearms Co. Ltd. The same list of numbers was forwarded to George Rose and Company Inc., Los Angeles, together with the order for the 400 Smith and Wesson revolvers. When hand firearms are sold at wholesale or are exported from Canada, the Company is not compelled to keep records of serial numbers although they usually do so for their own information. According to Mr. Sucher, the list of numbers submitted might refer either to the serial number or assembly number, but according to this source the numbers listed were those appearing on the revolvers shipped to George Rose and Company.

2. No additional information pertinent to this enquiry could be obtained and this file will be considered closed in the absence of an additional request for assistance from the Bureau.

Officer in Charge,

ASSASSINATION OF PRESIDENT

Communist due to the fact that he holds them responsible for his lost business in New Guinea, and that he liked the United States very much when he visited San Antonio in the latter part of October and that he went to the Immigration authorities in San Antonio to see what the Dutch quota for this country was.

Re: Assassination of President  
John F. Kennedy, November 22,  
1963, Dallas, Texas.

The following documents were obtained  
by our "C" Division C.I.B. and photostated. Copies  
of the photostats are attached as follows:

- (1) Letter from George Rose & Co. Inc., Los Angeles, Cal., addressed to Empire Wholesale Sporting Goods Co., Montreal, dated November 21, 1962.
- (2) Bill of Sale, Invoice #1209, from Empire Wholesale Sporting Goods Ltd., Montreal, to George Rose & Co. Inc., dated December 13, 1962.
- (3) Shipping Bill #166229, dated December 13, 1962, from Maislin Bros. Transport Ltd.
- (4) List of numbers purported to be serial numbers of the 400 Smith and Wesson revolvers, shipped by Empire Wholesale Sporting Goods Ltd., to George Rose & Co. Inc.

2. The list of serial numbers was not obtained by our investigator until after the telegram embodied in my letter of December 5th last had been dispatched.

3. On page 1 of the list of serial numbers there appears the number 62548. This is similar to the assembly number quoted in your memorandum of December 3rd for the revolver found in possession of Lee Harvey OSWALD. You will note that two of the figures in this number appear to be transposed. Obviously these are not serial numbers, as in the Smith and Wesson line, this consists of a prefixed letter and six digits. It is possible, however, that the assembly numbers have been mistaken for the serial numbers in this case.

4. Clarification has been requested on the following points:

- (a) Who prepared the list of numbers, International Firearms Ltd., Empire Wholesale Sporting Goods Ltd., or the exporter in England.

.... 2

- 2 -

- (b) Was a list of the descriptions and serial numbers sent with the shipment by Empire Wholesale Sporting Goods Co. to George Rose and Co. Inc.?

5. In this sale to George Rose and Co. Inc., Mr. ITCOVITCH, President of Empire Wholesale Sporting Goods Ltd., merely acted as Sales agent for International Firearms Company of Montreal, who imported the guns as military surplus from England.

6. A diary date of December 10th is set in Montreal for a further report, and we hope to have additional particulars available in the near future.

AMENDED TO: Assassination of President ✓

Texas - 22 NOV 63

1. Further to your report dated 5 DEC 63, find attached herewith copy of Commissioner's memorandum dated 4 DEC 63 and copy of a letter from the F.B.I. dated 3 DEC 63, requesting inquiries surrounding the sale of Smith and Wesson .38 revolver, serial #V510210, assembly #65248.

2. Reference to paragraph 3 (4) of your report it is noted that a list of serial numbers of the 400 revolvers imported from England was obtained from International firearms. It is requested that the following additional points be ascertained.

- a) Who prepared the list, International Firearms or the Exporter in England.
- b) Was a list of the description and serial numbers sent with the shipment by International Firearms to George ROSE.
- c) What type of records are kept by International Firearms concerning purchases and sales of firearms.

3. Whilst the list is supposed to contain serial numbers of the 400 firearms please note that Smith and Wesson serial numbers are composed of a letter and six digits and that from information obtained so far we cannot say that the firearm described in the F.B.I. correspondence was part of the shipment made by International Firearms to George ROSE, Los Angeles, Cal.

4. This investigation should be given top priority and your further report should be submitted to comply with the undernoted Diary Date.

Gentlemen:

We acknowledge receipt of your letter dated November 19, 1962 and thank you for same. First of all, we like to report that just the other day we were informed that the first shipment was located in Elizabeth, N.J. and we have made arrangements in the meantime for the pickup.

Now as to the new purchase, we were pleased to get from you Malinin's new New Jersey address and decided to get all the 400 revolvers in one shipment (when ready) rather than taking them in two shipments. Shipment is to be effected via Union Truck for their East Rutherford Terminal for later pickup by our Trucker.

Consequently, we asked our Bankers to open a Letter of Credit in your favor in the amount of \$ 5,000.00 for the purchase of

400 only S&W revolvers cal.38 Special, rolled, ans.3 1/2 & 4 1/2 barrall length, with non checkered grips, ind. boxed, @ 21.50 ea, fob New Jersey. Expiration date of L/C will be December 15, by which time we promise, you will have all the 400 revolvers together.

Please inform us when shipment will go forward, so that we can write Malinin accordingly and can arrange the pickup.

Very truly yours

1. Reference to memo from the CIB Co-Ordinating NCO dated Dec. 6, 1963 and particularly to para. 3 the following information was obtained from Mr. SUCHER President of International Firearms Co. Ltd., 1011 Bleury St., Montreal, P.Q. Tel: UN 1-2437.

2. The list of numbers forwarded with our report dated 5 Dec. 1963, was prepared by International Firearms Co. Ltd. Same list of numbers has been forwarded to George ROSE and Company Incorporated Los Angeles Cal. USA together with the order for the 400 firearms. International Firearms Co., informs that when firearms are sold locally, records on Forms CC44 are kept, however, when firearms are sold wholesale or exported, the Company is not compelled to keep records although this Company usually does keep them on their own.

3. Mr. SUCHER also informs that on several occasions in the past, firearms bought from Army Surplus in England did not carry serial numbers or any other number. The list of numbers submitted does not show necessarily serial numbers, they could also be assembly numbers, but according to above source, the numbers listed were the ones appearing on the revolvers forwarded to G. ROSE and Co.

RE:

Lee Harvey OSWALD  
Assistance to F.B.I.

HEADQUARTERS

1. Further to Commissioner's telexes CIB880 & 887 and answer from this Division per telex CIB1175, you will find attached hereto copies of documents pertinent to this enquiry.

SUB DIVISION

2. All efforts made to obtain these documents were not successful until 4 DEC 63. Mr. ITCOVITCH president of the Empire Wholesale Sporting Goods Ltd., was merely acting as sales agent for International Firearms Co, where his brother-in-law Mr. SUCHER is the president in this transaction.

DETACHMENT

3. The documents obtained consist of:  
1) An order letter from George Rose & Co., for 400 S&W .38 Spec. revolvers 3" & 4" barrell.  
2) A bill of sale, Inv. #1209 dated 13 DEC 1962 from Empire Wholesale Sporting Goods Ltd., to George Rose & Co., Inc. for 400 revolvers S&W .38 Spec.  
3) A shipping bill bearing #166229 dated 13 DEC 1962 from Maislin Bros. Transport Ltd., for three cases revolvers containing 400 S&W.  
4) A list of serial numbers of the 400 revolvers military surplus imported from England and included in this transaction. This list of serial numbers was supplied by Mr. SUCHER who had found same after our telex CIB1175 had been dispatched 4 DEC 63.

P.C.R.

4. You will note that on page -2- of the list of serial numbers obtained, appears a five digit figure almost identical to that received in Comm'r telex CIB880. It could be that two figures had inadvertently been misplaced showing 65248 instead of 62548.

A.R.V. No

5. The documents listed above were duly returned to the Empire Wholesale Sporting Goods Ltd., after being photostated.

OTHERWISE CONCLUDED.
